

Southern Cities Construction — One-Page Fulfillment Map

Operating rule: Southern Cities owns judgment, pricing, recommendations, contractor decisions, change orders, QA, and accountability. White-label vendors run production tasks only. No vendor speaks for Southern Cities.

Fulfillment models

A. Mostly in-house — judgment-heavy advisory B. White-label assisted — SC judgment with vendor production support
C. Mostly white-label with SC QA — vendor runs the cycle, SC approves D. Subcontracted field production — trade labor + vendor admin, SC controls E. Not safe to white-label execution — admin layer only behind SC

Vendor lanes (production only)

Standard

Southern Cities is the construction control company. The backend can scale through productized vendor pods, but the brand, trust, and judgment layer must always remain Southern Cities.
