

One licensed GC, one ladder: screen the deal, get the number, attach the verification, and have us build it at the price we write. Every product is priced and stands on its own — fees credit forward as you move up.

A shovel-ready package — with a written GC commitment to the price.

BUILD IT — INVESTOR EXECUTION & FULL GC

Every execution engagement starts with a **\$99 consultancy fee** — credited toward your project.

Project Setup & Contractor Coordination

Starting at \$2,500

We structure the whole project so contractors bid identical scope and the build never drifts.

Active Project Oversight

From \$6,500

We run the execution layer as your project manager — you keep the permits, the funding, and the upside.

Owner-Controlled Build

From \$5,000 + 4%

We pull the permits and own compliance; you keep daily control of the build.

Full-Service General Contracting

Cost-Plus or GMP

You bring capital, we deliver keys. Two ways to contract:

- **Cost-Plus a Fixed Fee** (*our preference*) — open-book: you pay the actual cost of the work plus a set contractor fee (a fixed dollar amount, not a percentage). Full transparency, aligned incentives.
- **Guaranteed Max / Fixed Price (GMP)** — a locked number with an on-schedule penalty; we absorb overruns above it. Scoped to your file.

FOR REALTORS

GC Quick Read

\$299

A fast, plain-English GC read before you pay for a full inspection.
You get: Real-vs-cosmetic, anything that stops a loan, a rough total, and a clear call. 1-2 days; credits to the Full Report.

GC Inspection + Budget Report

\$899 · rush \$1,199

The real repair number — and the same GC commits to do the work at it.
You get: Inspector on-site + a 3-tier budget (must-fix / high-return / optional), paste-ready repair wording, and the build commitment.

Realtor Support Plans

\$299 / \$649 / \$2,499 mo
 + \$75 one-time setup

A monthly GC on call for the construction questions across your deals.
You get: Monthly inspection/listing reviews + pricing answers with a response SLA. Solo / team / brokerage.

» Realtors can also use Deal Packs — attach a GC-Verified Deal Pack to a rehab-needed or investor listing to pull investor-buyers who pay top of market.

How the ladder works

Start free with a Snapshot. Pay for clarity (Quick Read, Execution Review, Deal Desk). Pay for a verified, sellable report (Deal Pack). Then we build it — and each fee credits toward the next step.

Every paid level, guaranteed

We evaluate your project before we accept it. If we can't deliver at our standard, full refund. Once we accept, we deliver — you're paying for our commitment, not gambling on the outcome.

How to buy

Fixed-price products check out online — no quote, no call. Memberships are month-to-month. Deeper build levels are scoped to your file. Backed by NC GC License #107724.
