SOUTHERN CITIES CONSTRUCTION

HOW WE KNOW WHAT'S REALLY WRONG — the diagnosis ladder

An inspection shows symptoms, not causes. A ceiling stain could be roof, flashing, plumbing, or condensation — same symptom, four different repair bills. Because we **commit to the price**, we climb only as far up this ladder as the risk demands — then hold the number honestly.

1 HYPOTHESIS

GC Quick Read · \$299

GC reads your report / photos — flags + rough ranges.

Opinion, not verified.

2 DOCUMENTED

Inspected GC Read · \$649

Licensed inspector on-site — symptoms documented + GC's read.

Visual only — symptoms, not causes.

3 DIAGNOSED

Diagnosis · from \$199

Targeted diagnostics find the true source on the big-swing items.

Sewer scope · moisture/thermal · engineer eval · inspection port.

4 FIRM & FIXED

Inspection + GC Budget Report · \$899 → we fix it

Root-cause scope + a firm number, then we do the work.

Held by allowances + concealed-condition terms.

◆ **HOW THE PRICE HOLDS** so the commitment isn't a guess: **Assumptions & exclusions** stated up front · **Allowances** for unknown-scope items (reconciled to actual) · **Concealed-conditions clause** — open-and-find that wasn't reasonably visible = a defined change order, not your loss · Diagnostics only where the cause is uncertain *and* the cost swing is big.

SOUTHERN CITIES CONSTRUCTION

THE DETAIL — every product & exactly what you get

◆ **CREDITS FORWARD** Pay for a step and its fee credits toward the next step up on the same deal — Quick Read → Report → the job. Relevant credits only.

GC-Certified Checklists

Free

Instant download · lead magnet

- Pre-listing & inspection reference sheets — GC-certified, client-ready

GC Quick Read

\$299 · rush \$399 (same-day)

1–2 business days (or same-day rush) · desk read · buyer-side or seller-side

- Critical-vs-cosmetic triage · loan-killer flags · rough cost · plain-English GC verdict (go / no-go)
- **Item-by-item severity** on your inspection report + repair-scope notes
- **Paste-ready repair-request language** + a client-shareable PDF
- Offer- or listing-strategy note — we read your inspection report or property details/photos

Desk read — no inspector dispatched (for that, step up to the Inspected GC Read). Credits the GC-read value toward the budget.

Inspected GC Read

\$649

Licensed inspection + GC read · when there's no inspection yet

- Licensed third-party inspector on-site → full standard inspection report
- GC Quick Read layered on the findings — real-vs-cosmetic, loan-killers, rough cost, GC call

The bridge into the budget. Credits the \$299 GC-read value forward — the inspection is a pass-through cost, so only our own service value rolls forward.

Pre-Listing Audit

\$649

Licensed inspection + GC seller analysis · the GC portion credits if SC handles repairs over \$1,000

- **Licensed inspector on-site** — advice grounded in real condition, not photos
- Fix / skip / disclose call per item · condition-adjusted price band
- Top value-drag items (cost-to-fix vs cost-to-leave) · pricing-strategy recommendation

The seller-side sibling of the Inspected GC Read: inspection (\$400) + GC analysis (\$249).

Diagnosis

from \$199 + test cost

GC coordinates the right test + reads the result

- We scope which test the symptom needs, dispatch the vetted specialist/sub, and translate the finding into your budget
- Tests (all coordinated, not self-performed): inspection port + borescope · sewer scope · moisture/thermal · structural-engineer eval (licensed PE)
- Run only where the cause is uncertain AND the cost swing is big

You're paying for GC judgment — which test, and what it means for the repair. Turns a symptom into a known cause so the committed number holds.

GC Budget (on your inspection)

\$599

The GC budget built on the inspection you already have · no new inspection

- Full 3-tier budget — Mandatory / High-ROI / Disclose & Skip — on your existing inspection
- Paste-ready repair-request language · **the GC commits to do the work at the budget we write**

Priced like an investor Bid-Ready (\$599) — the GC budget, consistent across audiences. Quick Read credits in; add our inspection (+\$400) to make it the full \$899 Report.

Inspection + GC Budget Report

\$899 · rush \$1,199

3–5 business days (rush 24–48 hrs) · flagship

- **Licensed third-party inspector** on-site + full inspection report
- The **GC** layers on the 3-tier budget: **Mandatory / High-ROI / Disclose & Skip**
- Paste-ready repair-request language · negotiation framing memo
- **The same GC commits to do the work at the budget we write**
- 5–7 day Mandatory-fix speed guarantee (when SC handles the repairs)

A licensed inspector inspects; our GC prices it — firm for the assumed scope, held by allowances + concealed-condition terms. \$899 credits toward the job.

Year-1 Priority Repair Plan

\$299

WE DO THE REPAIRS

4

We fix it — at the number we wrote.

Repair Execution

Scoped from the Report

The GC actually does the work — Mandatory fixes first

- SCC's licensed crew + vetted subs execute the repair list
- Mandatory fixes prioritized — 5–7 day speed guarantee
- Permits pulled where required · repair-verification + photo documentation
- Ready-to-list / ready-to-close handoff

Fulfills the Full Report's build commitment — the Quick Read / Report fees credit toward the work.
