CORE IDENTITY

A construction platform, backed by a licensed general contractor.

Packaged construction solutions for every stage of a residential project — buy exactly the expertise you need now, and carry the same licensed builder all the way through.

We unbundled the general contractor.

A traditional GC sells one product — the whole build. We sell every stage of it. That's the difference; lead with it.

PHILOSOPHY

Not every project needs a general contractor. Every project needs the right construction expertise at the right time.

THE MODEL

What it is A **platform**: our construction expertise is organized into clearly defined, fixed-scope packages. Clients enter at any stage — a single question, a budget, a scope, oversight, or a full build — and escalate only if and when they're ready.

Backed by a **licensed general contractor** (NC GC #107724). One accountable builder behind every package — not a marketplace, not a consultant reselling other people's work.

Business model **Packaged Construction Solutions**. Fixed scope, clear price, bought by stage.

Trust line (supporting copy, not a headline): *numbers from a builder, not a guess — and the price we scope is the price we build. Use it where a package competes with inspectors, estimators, or a wholesaler's spreadsheet.*

Where are you in the process?

Our core question. Every package is built to move a client confidently to the next stage.

CUSTOMER JOURNEY

Evaluate → Plan → Finance → Manage → Renovate → Build → Maintain

A package exists for each stage. *Finance = we help structure and line up funding — a GC coordinating money, not a lender.*

HOW WE'RE DIFFERENT

You don't have to hire a GC to get a GC's expertise. A traditional contractor gives you pre-construction knowledge only as sales overhead for the build they want to sell. We sell it standalone: buy a builder's eyes on a deal for a fixed price, no construction commitment — and if the project does go to construction, the platform already knows it and the builder who scoped it is already on it. No restart, no re-education, one accountable license from first look to final inspection.

THE PACKAGES

Deal Evaluation Is this deal worth it?	Budget Snapshots Fast, GC-verified rehab range
Site Visits Experienced eyes on the property	Scopes of Work The itemized plan to build to
Bid Packages Ready to price out cleanly	Project Oversight We watch the build for you
Owner Representation Your advocate on-site	On-Call Construction Expertise A GC in your corner
Renovations We do the work	Full-Service General Contracting We run the whole build

AUDIENCE

Primary Residential real estate **investors**, **real estate professionals** (realtors), and **developers**.

Also serve Property owners, homeowners, landlords.

Future Lenders, attorneys, insurance-related work, asset managers.

Marketing focus NOW: active spend goes to the two focus segments only — **controlled deals (investors/wholesalers, paid up front)** and **SCC products for realtors**. Everyone else gets a light “we also serve” page, promoted later. Identity broad, marketing narrow.

BRAND PHILOSOPHY — “THE STANDARD”

A home is where a person lives their life. That deserves a **standard** — process, planning, execution, and management, done right. Not luxury. Not janky half-fixes. Quality places at a reasonable price, held to a standard on every project.

Tagline: Built to a standard. Priced for real life. (The belief underneath the offer — supporting message, never a competing headline.)

POSITIONING, PITCH & PROMISE

Positioning Southern Cities Construction is a construction platform backed by a licensed general contractor. We’ve unbundled the GC: our expertise comes as fixed-scope packages for every stage of a residential project, so clients buy exactly what they need, when they need it — and can carry the same licensed builder through to the finished project.

Elevator pitch We’re a construction platform backed by a licensed GC. A traditional contractor sells one product — the whole build. We’ve packaged our expertise into solutions for every stage of a residential project. Whether you’re evaluating a deal, planning a renovation, or managing a build, you buy exactly what you need — and when you’re ready to build, the builder is already on your project.

Brand promise The right construction package, with the right expertise, at the right stage of your project.

Internal value prop We don’t just build projects. We deliver the right construction expertise at the right time.

HOMEPAGE HEADLINE (WORKING)

A Construction Platform, Backed by a Licensed General Contractor.

Not every project needs a GC — every project needs the right construction expertise at the right time. Start with the package that fits where you are. If the project goes to construction, the builder who scoped it is already on it.

VOICE & TONE

USE	AVOID
Plain-spoken, real, no hype. Direct statements, specific numbers.	Hype words (“amazing,” “game-changing”). Income guarantees.
Investor/wholesaler language (“napkin number,” “the table”). Confident understatement.	“Luxury” framing. Generic platitudes. Rows of emojis.
Platform language: packages, stages, “where are you in the process?” License-backed voice — the company + #107724.	Marketplace/middleman framing. Founder-as-guru. Selling “we price it and build it” as if it were unique — every GC does that; our edge is the unbundling.

VISUAL STYLE

				
Navy #132452	Orange #FA8C41	Cream #F6F2EC	Red (X) #D24040	Green (check) #22A05A

Type Arial/Helvetica Black for headlines, Bold for body.

Layout Clean, big type. Red-X vs green-check comparison is our signature. Every ad 1:1 (1080×1080) AND 9:16 (1080×1920).

Do NOT use Meta Advantage+ Creative AI image enhancement (adds stock photos, can hide the license footer).

COMPLIANCE — NON-NEGOTIABLE

Every piece of marketing must display **NC GC License #107724** — static ads, videos, emails, PDFs, social posts, landing pages. No exceptions (NC regulatory requirement). Standard footer: **“Southern Cities Construction — NC GC License #107724.”**
